

# LED 2000 Curing Light

**Polymerizes** all composite materials.

**Portable:** Cordless operation with a longer battery life.

**Powerful Output:** 2000mW/ cm<sup>2</sup> (± 10%). Offers 5, 10, 15, and 20 second curing times.

**User friendly:** Three modes with different curing times. Full, Ramp, Pulse.

**Durability:** Solid ergonomic aluminum body sets it apart from mass of plastic competitors in quality and durability

**Ease of Disinfection:** Seamless body design makes disinfection easier than ever.

**Available in 3 colors:** silver, pink and blue

Every dentist should have one.
